Graduated in Mathematics at the University of Catania. Researcher at Department of Mathematics and Computer Sciences of Catania University (1992-93). Associate professor at the Faculty of Agriculture of Molise University (1993-96). Associate professor at the Faculty of Agriculture of Catania University (1996-2012). Associate professor at the Department of Mathematics and Computer Science of Catania University (2012-present). 1995-1996: Board member at the I.R.R.S.A.E.-Molise. 2009-today: he has worked at large of the journal L'Educazione Matematica, a journal of mathematics for teachers of any school. 2005-2012: He collaborates with the Piano Lauree Scientifiche (PLS) in the sub-project of the University of Catania. Among others activity he has collaborated in realising several teachers' laboratory. 2012-present: it is referent for TFA and PAS for class A059. He has published works in the field of combinatorial geometry (until 1998) and he is involved in foundational research and teaching/learning of mathematics research nowadays, with emphasis on geometry. He is the author of a large number works on matter of pre-university mathematics education published in magazines and national and international conference proceedings. Results of these studies were presented both at national conferences and at international ones (MEC21-Dresda 2009, TIME-Malaga 2010, Incontri con la Matematica-Castel San Pietro 2010, ATCM-Kuala Lumpur 2010, UMI-Bologna 2011, ICME12-Seoul 2012) .
