PUBLICATIONS

Lorenzo Maria Filippo, Milazzo

1. V. Catania, L. Milazzo, L. Vita, (1989): "Performance-reliability improvement in distributed system an industrial LAN". *IEEE Global Telecommunications Conference & Exhibition* , **1**, 319 - 327.

2. V. Catania, L. Milazzo, A. Puliafito, L. Vita, (1990): "Enhancing reliability in an industrial LAN: design and performability evaluation", *IEEE Transactions on Industrial Electronics*, **37, 6**, 433–441.

3. L. Milazzo, (1995): "On upper chromatic number for SQS(10) and SQS(16)", *Le Matematiche*, **L**, 179–193.

4. S. Cavalieri, L. Milazzo, (1997): "A hypergrapgh theory-based approach to distributed system reliability evaluation", *Journal of Information & Optimization Sciences*, **18**, 17–31.

5. L. Milazzo, Z. Tuza, (1997): "Upper chromatic number for Steiner triple and quadruple systems", *Discrete Mathematics*, **174**, 247–259.

6. L. Milazzo, (1997): "Common blocks for ASQS(12)", *Le Matematiche*, **LII**, 144–148.

7. L. Milazzo, (1997): "The monochromatic block number", *Discrete Mathematics*, **165/166**, 487–496.

8. L. Milazzo, Zs. Tuza, (1998): "Strict colourings for classes of STS", *Discrete Mathematics*, **182**, 333–343.

9. L. Milazzo, (1999): "Colorazioni strette per sistemi di Steiner di tipo STS e SQS", *Rendiconti del Seminario Matematico di Messina*, **5**, 107–117.

10. G. Lo Faro, L. Milazzo, A. Tripodi (2000): "The first BSTS with different upper and lower chromatic numbers", *Australasian J. Combinatorics*, **22**, 123–133.

11. G. Lo Faro, L. Milazzo, A. Tripodi (2001): "On the upper and lower chromatic numbers of BSQS(16)", *Electronic Journal of Combinatorics* **8**, R6.

12. M. Buratti, M. Gionfriddo, L. Milazzo, V. Voloshin (2001): "Lower and upper chromatic numbers for BSTSs($2^k - 1$)", *Computer science Journal of Moldova*, **9**, 259–272.

13. M. Gionfriddo, L. Milazzo, V. Voloshin (2002): "On the upper chromatic index of a multigraph" *Computer science Journal of Moldova*, **10**, 81–91.

14. L. Milazzo, C. C. Lindner, (2002): "Embedding partial bipartite directed cycle system", *Discrete Matematics*, **244**, 269–278.

15. L. Milazzo, Zs. Tuza, V. Voloshin (2003): "Strict colouring for triple and quadruple Steiner systems: a survey", *Discrete Mathematics*, **261**, 399-411.

16. M. Gionfriddo, L. Milazzo, A. Rosa, V. Voloshin (2004): "Bicolouring Steiner systems $S(2, 4, v)$", *Discrete Matematics*, **283** 1–3, 249–253.

17. M. Gionfriddo, L. Milazzo (2005): "A survey on conjectures of Berge and Chvátal for linear hypergraphs", *Bulletin of the Institute of Combinatorics and its Applications*, **45**, 77-93.

18. L. Milazzo, Zs. Tuza, (2007): "A class of Steiner systems S(2,4,v) with arcs of extremal size", *Tatra Mountains Mathematical Publications*, **36**, 153-162.

19. M.Gionfriddo, P.Horak, L.Milazzo, A.Rosa (2008): "Equitable specialized block-colourings for Steiner triple systems", *Graphs and Combinatorics*, **24**, 313-326.

20. L. Milazzo, Zs. Tuza, (2009): "Logarithmic upper bound for the upper chromatic number of S($t, t + 1, v$) systems", *Ars Combinatoria*, **92**, 213-223.

21. B. AlBdaiwi, P. Horak, L. Milazzo, (2009): "Enumerating and Decoding Perfect Lee Codes", *Designs, Codes and Cryptography*, **52**, 2, 155-162.

22. A. Amato, M. Gionfriddo, L. Milazzo (2013): "A survey of Lucia Gionfriddo's results about colourings in BP_3-designs", *Quaderni di Matematica*, **28**, 39-60.

23. M. Gionfriddo, A. Lizzio L. Milazzo, V. Voloshin (2013): "Upper chromatic number and strict colorings of quadruple systems", *Quaderni di Matematica*, **28**, 339-349.

24. A. Amato, M. Gionfriddo, L. Milazzo (2012): "2-Regular Equicolourings for $\mathbf{P}_4$-designs", *Discrete Mathematics*, **312**, 2252-2261,.

25. E. Guardo, M. Gionfriddo, L. Milazzo (2013): "Extended colorings for $BSTS(2v+1)$", *Applicable Analysis and Discrete Mathematics*, **7**.

26. M. Gionfriddo, L. Milazzo (2013): "Equiblocking Sets in $K_(2,2)$-Designs and in $K_(3,3)$-Designs", *Applied Mathematical Sciences*, **7**, 4549-4557.

27. M. Gionfriddo, S. Kucukcifci, L. Milazzo (2013): "Balanced and Strongly Balanced 4-Kite Designs", *Utilitas Mathematica*, **91**, p. 121-129.

28. M. Gionfriddo, L. Milazzo, R. Rota (2013): "Strongly Balanced 4-Kite Designs Nested into OQ-Systems", *Applied Mathematics*, **4**, 703-706.

29. M. Gionfriddo, L. Milazzo (2013): "Uniform Coloured Hypergraphs and Blocking Sets", *Applied Mathematical Sciences*, **7**, 4535-4548.

30. E. Guardo, L. Milazzo, V. Voloshin (2014): "Feseable set for small $BSTS(v)$", *Australasian J. Combinatorics*, **59**, 107-119.

31. M. Gionfriddo, L. Milazzo, R. Rota (2014): "Multinestings in Octagon Quadrangle Systems", *Ars Combinatoria*, **113**, 193-199.
